### Academic Reading Strategies – The Writing Center ...

Writing and reading on a very basic level are both means of communication. There is a significant difference between the two, but they are both also related closely. Reading is the process of going through text and comprehending it. The process of being able to recognize the contrast between sentences, words, along with critical thinking skills come into play.

Reading & Writing for Academic Success was designed to present high-level academic content-based instruction to students who are preparing to participate in the academic community. The material is appropriate for classes where critiquing and integrating authentic text to reflect, react, write, and revise is stressed. This text reinforces some study skills -- annotation as a bridge to summary writing, an understanding of various genres, presentation skills, and techniques for reading for fluency. Reading & Writing for Academic Success teaches reading and writing as inter-related for academic purposes the need for quality supporting information and credibility of evidence, both in reading and writing critical-thinking skills the need for a relevant coherent theme to develop interest and expertise.

to write assignments, reports and dissertations. Though most students can read fairly well, few can make as much or as efficient use as possible of the time they devote to reading for academic purposes. Many guides to study offer a pot pourri of techniques for improving reading skills. None gives as full a treatment of this essential and underpinning area of academic life as *Reading at University*. The authors believe that students must change both the ways in which they read and the ways in which they think about reading. This book offers effective and efficient strategies for fulfilling students' reading and study potential.

Mastering Academic Reading is meant to challenge advanced academically oriented students of English. The units and the readings within them are long. The comprehension and expansion exercises after them are demanding. The hoped-for outcome is that students trained using this textbook will be able to better hold their own in university classes where the reading volume across disciplines and vocabulary demands are high. Almost every reading is taken, in minimally adapted form, from a book or academic / professional journal. Two introductory passages have been composed expressly for this book in order to provide narrowly focused background material. Beyond these pieces, readers are in the hands of “ real-world ” authors and

their difficult, lexically diffuse, and allusion-filled creations. Journal articles and book excerpts predominate, but *Mastering Academic Reading* also offers a book review and a government pamphlet as well. Since one aspect of reading practice builds on others, the units are laid out in tiers, not in sections. Each unit has been organized into three tiers. In general, there is one reading per tier, although the first tier in Unit 3 contains two passages (both necessary to provide conceptual background for the other two tiers). Each reading is 3,500-5,000 words. The book focuses on the three primary goals of academic reading: reading to learn; reading to integrate, write, and critique texts; and reading for basic comprehension.
