I believe its unique way of categorizing each type of question, giving insightful tips to master these problems, as well as the detailed analysis for each set of problems were key factors in my cracking the test. Moreover, I found problems that I did not find anywhere else and which were critical on the D-day when answering a few extra questions right made the difference between a good score and an excellent one." -Cédric Gouliardon, Telecom Specialist; INSEAD graduate~~

The Official Guide has lots of problems to practice on, but Ace the GMAT is superb for helping understand conceptually how the problems work. I highly recommend this manual as your first line of defense.
