'A master of the genre' The Times The Tungrians have no sooner returned to Rome than they find themselves tasked with a very different mission to their desperate exploits in Parthia. Ordered to cross the river Rhene into barbarian Germany and capture a tribal priestess who may be the most dangerous person on the empire's northern border, they are soon subject to the machinations of an old enemy who will stop at nothing to sabotage their plans before they have even set foot on the river's eastern bank. But after their Roman enemy is neutralised they face a challenge greater still. With two of the Bructeri tribe's greatest treasures in their hands they must regain Roman territory by crossing the unforgiving wilderness that was the graveyard of Roman imperial strategy two hundred years before. And capture by the Bructeri's vengeful chieftain and his warband can only end in one way - a horrific sacrificial death on the tribe's altar of blood.

This fascinating book explores the epic clash between two ancient empires in a 250-year conflict which would define the boundaries of the ancient world for more than seven centuries. In 53 BC, Roman and Parthian forces collided in a confrontation that would reshape the geopolitical map and establish a frontier between East and West that would endure for the next 700 years. From the initial clash at Carrhae through to the battle of Nisibis more than 250 years later, Roman and Parthian forces fought a series of bloody campaigns for mastery of the Fertile Crescent. As Roman forces thrust ever deeper into the East, they encountered a civilization unlike any they had crossed swords with before. Originating in the steppes of Central Asia, the Parthians ruled a federated state stretching from the Euphrates to the Indus. Although Rome's legions were masters of the battlefield in the Mediterranean, the Parthians refused to fight by the rules as Rome understood them. Harnessing the power of the composite bow and their superior maneuverability, the Parthians' mode of warfare focused exclusively on the horse. They inflicted a bloody defeat on the legions at Carrhae and launched their own invasion of Roman territory, countered only with great difficulty by Rome's surviving forces. The Parthians were eventually thrown out, but neither side could sustain a permanent ascendancy over the other and the conflict continued. Packed with stunning artwork, including battlescenes, maps, and photographs, this title examines the conflict through the lens of three key battles, revealing a clash between two armies alien to each other not only in culture but also in their radical approaches to warfare.

Uses maps, text, and illustrations to present the history of the Roman Empire, from its beginning as a modest village to its transformation into a Christian theocracy

The ninth novel in Simon Scarrow's bestselling Roman series. While centurions Macro and Cato are returning to Rome from a harrowing campaign against the Parthians, their transport ship is almost capsized by a tidal wave. They barely make it to the port of Matala in Crete where they are stunned to find a devastated town. An earthquake has struck the island, destroying its cities and killing thousands. In the chaotic aftermath, large bands of the island's slaves begin to revolt and local bandits, taking advantage of the slave rebellion, urge the Cretans to overthrow the Roman administration. With many of the island's troops either killed or wounded during the earthquake, the governor of the province calls on Macro and Cato for help. Can they move swiftly enough to counter the rebellion before it sweeps the Romans from the island?

Examines the art, architecture, literature, and rhetoric of the Roman empire, and compares the differences under the three Antonine emperors

Provides a new narrative history of the ancient world, from the beginnings of civilization in the ancient Near East and Egypt to the fall of Constantinople Written by an expert in the field, this book presents a narrative history of Babylon from the time of its First Dynasty (1880-1595) until the last centuries of the city's existence during the Hellenistic and Parthian periods (ca. 331-75 AD). Unlike other texts on Ancient Near Eastern and Mesopotamian history, it offers a unique focus on Babylon and Babylonia, while still providing readers with an awareness of the interaction with other states and peoples. Organized chronologically, it places the various socio-economic and cultural developments and institutions in their historical context. The book also gives religious and intellectual developments more respectable coverage than books that have come before it. A History of Babylon, 2200 BC – AD 75 teaches readers about the most important phase in the development of Mesopotamian culture. The book offers in-depth chapter coverage on the Sumero-Addadian Background, the rise of Babylon, the decline of the first dynasty, Kassite ascendancy, the second dynasty of Isin, Arameans and Chaldeans, the Assyrian century, the imperial heyday, and Babylon under foreign rule. Focuses on Babylon and Babylonia Written by a highly regarded Assyriologist Part of the very successful Histories of the Ancient World series An excellent resource for students, instructors, and scholars A History of Babylon, 2200 BC - AD 75 is a profound text that will be ideal for upper-level undergraduate and graduate courses on Ancient Near Eastern and Mesopotamian history and scholars of the subject.

The Annals is a gripping account of the Roman emperors Tiberius, Claudius, and Nero and the brutality that marked their reigns. Tacitus deploras their depravity, proof of the corrupting force of absolute power. J.C. Yardley's vivid and accurate translation is complemented by a thorough introduction and notes.

Indispensable biographies of major figures in Roman history. A mathematician and philosopher, Plutarch was also an acclaimed biographer and historian. Bringing together nine biographies from his Parallel Lives series, Rome in Crisis examines the lives of some of the most important people in the roman empire- Tiberius Gracchus, Gaius Gracchus, Sertorius, Lucullus, Younger Cato, Brutus, Antony, Galba, and Otho, a reckless young noble who consorted with the tyrannical, debauched emperor Nero before briefly becoming emperor himself. Each biography is preceded by an insightful introduction by the distinguished historian Christopher Pelling. Taken together, these portraits provide a wonderfully compelling picture of the ancient world.
