Third Edition

different thinkers and in the various political traditions, and explores related debates and controversies.

This textbook provides a comprehensive introduction to the study of politics, covering areas as diverse as comparative government and political philosophy, international relations and political economy, from an international perspective.

This revised, updated, and considerably expanded new edition provides a systematic introduction to the theory and practice of contemporary international relations. Including pedagogical features highlighting key thinkers and concepts, this text clarifies the fundamental debates and issues at stake in global political affairs.

The 2nd edition of *Global Politics: A New Introduction* continues to provide a completely original way of teaching and learning about world politics. The book engages directly with the issues in global politics that students are most interested in, helping them to understand the key questions and theories and also to develop a critical and inquiring perspective. Completely revised and updated throughout, the 2nd edition also offers additional chapters on key issues such as environmental politics, nationalism, the internet, democratization, colonialism, the financial crisis, political violence and human rights. *Global Politics: Examines the most significant issues in global politics – from war, peacebuilding, terrorism, security, violence, nationalism and authority to poverty, development, postcolonialism, human rights, gender, inequality, ethnicity and what we can do to change the world* Offers chapters written to a common structure which is ideal for teaching and learning and features a key question, an illustrative example, general responses and broader issues Integrates theory and practice throughout the text, by presenting theoretical ideas and concepts in conjunction with a global range of historical and contemporary case studies Drawing on theoretical perspectives from a broad range of

disciplines including international relations, political theory, postcolonial studies, sociology, geography, peace studies and development this innovative textbook is essential reading for all students of global politics and international relations.

This substantially revised third edition of the leading text on political ideologies takes full account of the impact of the post-Cold War world order, the challenge of postmodernism, the advance of globalization, and the advent of global terrorism, and includes additional coverage of the prospects for ideologies in the 21st century.

The fifth edition of this leading text on political ideologies provides a clear and accessible introduction to the political creeds and doctrines that have dominated and shaped world politics. Ranging from traditional nineteenth-century ideologues such as liberalism, conservatism and socialism, to so-called 'new' ideologies such as feminism, ecologism and political Islam, the author offers a clear exposition both of the historical development of each ideology and the impact each has had on contemporary political movements, parties and governments. Their distinctive ideas and values are highlighted, together with the competing, and sometimes conflicting, traditions which they have generated. This new edition has been thoroughly revised and updated throughout, with extended coverage given to key current issues such as multiculturalism and neo-conservatism. Andrew Heywood's uniquely student-friendly writing style is now supported by a range of learning features in each chapter.

- Ideology Previews outline the nature of the ideologies and their central themes
- On-page definitions give quick-reference explanations of key terms
- Illustrated 'Key Figure' Profiles provide detail on important thinkers and their major ideas
- 'Key Concept' boxes explore and unpack important ideas
- Boxes on 'Perspectives' and 'Tensions' outline the differences within and between ideological traditions

Questions help to apply and reinforce understanding

This is the first comprehensive volume to offer a state of the art investigation both of the nature of political ideologies and of their main manifestations. The diversity of ideology studies is represented by a mixture of the range of theories that illuminate the field, combined with an appreciation of the changing complexity of concrete ideologies and the emergence of new ones. Ideologies, however, are always with us. The Handbook is divided into three sections: The first is divided into three sections: The first reflects some of the latest thinking about the development of ideology on an historical dimension, from the standpoints of conceptual history, Marx studies, social science theory and history, and leading schools of continental philosophy. The second includes some of the most recent interpretations and theories of ideology, all of which are sympathetic in their own ways to its exploration and close investigation, even when judiciously critical of its social impact. This section contains many of the more salient contemporary accounts of ideology. The third focuses on the leading ideological families and traditions, as well as on some of their cultural and geographical manifestations, incorporating both historical and contemporary perspectives. Each chapter is written by an expert in their field, bringing the latest approaches and understandings to their task. The Handbook will position the study of ideologies in the mainstream of political theory and political analysis and will attest to its indispensability both to courses on political theory and to scholars who wish to take their understanding of ideologies in new directions.

The new third edition of the highly successful text has been revised and updated throughout to take account of new issues such as identity and difference, globalization and multiculturalism. The book provides a clear and accessible introduction to political theory and key concepts in political analysis. Each chapter discusses a cluster of interrelated terms, examines how they have been used by

different thinkers and in the various political traditions, and explores related debates and controversies.

"This book provides an engaging and intellectually challenging introduction to political ideologies, while at the same time giving an accessible route into the subject for those new to politics. Supported by an outstanding companion website, it has strong claims to be the best undergraduate textbook on ideologies on the market." Dr. Mike Gough, University of East Anglia

Introduction to Political Theory is a text for the 21st century. It shows students why an understanding of theory is crucial to an understanding of issues and events in a rapidly shifting global political landscape. Bringing together classic and contemporary political concepts and ideologies into one book, this new text introduces the major approaches to political issues that have shaped the modern world, and the ideas that form the currency of political debate. Introduction to Political Theory relates political ideas to political realities through effective use of examples and cases studies making theory lively, contentious and relevant. This thoroughly revised and updated second edition contains new chapters on global justice and political violence, as well as an expanded treatment of globalisation and the state. A wide range of pedagogical features helps to clarify, extend and apply students' understanding of the fundamental ideologies and concepts. This is comprised of:

- Case studies demonstrate how political ideas, concepts and issues manifest in the real world
- 'Focus' boxes encourage students to appreciate alternative viewpoints
- A range of thought provoking photographs challenge students to examine concepts from a different angle
- Suggestions for further reading and weblinks are also provided to help students to further their understanding

Introduction to Political Theory is accompanied by an innovative website with multiple choice questions, biographies of key figures in political theory, further case studies and an innovative 'how to read' feature which helps students get to grips with difficult primary texts.
