Excerpt: The Beatles Anthology is a documentary series on the career of The Beatles. It was broadcast on television in six abridged parts between November and December 1995. An eight volume VHS set and an 8 disc Laserdisc set were released on 5 September 1996. The series was re-released on DVD in 2003, with an 81-minute special-features disc. An official documentary on The Beatles career had been in the pipeline as far back as 1970. Long-time friend and Apple Corps manager Neil Aspinall had compiled footage from various sources around the world of concert, interview and television appearances. From this archival footage, Aspinall assembled a 90 minute feature film which was tentatively titled The Long and Winding Road and was completed in 1971. At this point, none of the former members had any involvement with the project and plans for its release lay dormant until 1980, when John Lennon stated as part of a legal deposition against the producers of the musical 'Beatlemania' that: "I and the other three former Beatles have plans to stage a reunion concert," an event to be filmed as a finale of The Long and Winding Road (which was now to be a television special). According to Lennon's widow, Yoko Ono the concert would have been held in England: "Just days before his brutal death, John was making plans to go to England for a triumphant Beatles reunion. His greatest dream was to recreate the musical magic of the early years with Paul, George and Ringo...(he) felt that they had travelled different paths for long enough. He felt they had grown up and were mature enough to try writing and recording..."

"The Beatles Literary Anthology is a unique volume containing over 40 years of interviews, articles,

reviews and essays, on subjects ranging from the Fab Four's origins in Liverpool, to their influence on the counterculture of the late 1960s, and beyond to the post-Beatle paths followed by John Lennon, Paul McCartney, George Harrison, and Ringo Starr."--BOOK JACKET.

Winner of the 2020 Baillie Gifford Prize for Non-Fiction A distinctive portrait of the Fab Four by one of the sharpest and wittiest writers of our time "If you want to know what it was like to live those extraordinary Beatles years in real time, read this book." –Alan Johnson, *The Spectator* Though fifty years have passed since the breakup of the Beatles, the fab four continue to occupy an utterly unique place in popular culture. Their influence extends far beyond music and into realms as diverse as fashion and fine art, sexual politics and religion. When they appeared on *The Ed Sullivan Show* in 1964, fresh off the plane from England, they provoked an epidemic of hoarse-throated fandom that continues to this day. Who better, then, to capture the Beatles phenomenon than Craig Brown—the inimitable author of *Ninety-Nine Glimpses of Princess Margaret* and master chronicler of the foibles and foppishness of British high society? This wide-ranging portrait of the four lads from Liverpool rivals the unique spectacle of the band itself by delving into a vast catalog of heretofore unexamined lore. When actress Eleanor Bron touched down at Heathrow with the Beatles, she thought that a flock of starlings had alighted on the roof of the terminal—only to discover that the birds were in fact young women screaming at the top of their lungs. One journalist, mistaken for Paul McCartney as he trailed the band in his car, found himself nearly crushed to death as fans climbed atop the vehicle and pressed their bodies against the windshield. Or what about the Baptist preacher who claimed that the Beatles synchronized their songs with the rhythm of an infant's heartbeat so as to induce a hypnotic state in listeners? And just how many people have employed the services of a Canadian dentist who bought John Lennon's tooth at auction, extracted its DNA, and now offers paternity tests to those hoping to sue his estate? 150 *Glimpses of the Beatles* is, above all, a distinctively kaleidoscopic examination of the Beatles' effect on the world around them and the world they helped bring into being. Part anthropology and part memoir, and enriched by the recollections of everyone from Tom Hanks to Bruce Springsteen, this book is a humorous, elegiac, and at times madcap take on the Beatles' role in the making of the sixties and of music as we know it.

Tune In is the first volume of *All These Years*—a highly-anticipated, groundbreaking biographical trilogy by the world's leading Beatles historian. Mark Lewisohn uses his unprecedented archival access and hundreds of new interviews to construct the full story of the lives and work of John Lennon, Paul McCartney, George Harrison, and Ringo Starr. Ten years in the making, *Tune In* takes the Beatles from before their childhoods through the final hour of 1962—when, with breakthrough success just days away,

Read Book Beatles Anthology 3

they stand on the cusp of a whole new kind of fame and celebrity. They've one hit record ("Love Me Do") behind them and the next ("Please Please Me") primed for release, their first album session is booked, and America is clear on the horizon. This is the lesser-known Beatles story—the pre-Fab years of Liverpool and Hamburg—and in many respects the most absorbing and incredible period of them all. Here is the complete and true account of their family lives, childhoods, teenage years and their infatuation with American music, here is the riveting narrative of their unforgettable days and nights in the Cavern Club, their laughs, larks and adventures when they could move about freely, before fame closed in. For those who've never read a Beatles book before, this is the place to discover the young men behind the icons. For those who think they know John, Paul, George, and Ringo, it's time to press the Reset button and tune into the real story, the lasting word.

From behind the drums to behind the lens, in *Photograph* Ringo Starr opens his archives to share memories of his childhood, The Beatles and beyond. Rare and unseen photographs taken by Ringo, with others reproduced from his family albums, are showcased here for fans of The Beatles and anyone passionate about modern music. Accompanied by Ringo's original manuscript of over 15,000 words, *Photograph* gives unprecedented insight into the life of one of the world's greatest musicians. From Pwllheli to Delhi, obscurity to superstardom, join Ringo on his travels in his photographic memoir.

As recommended by USA Today and excerpted on RollingStone.com! *Still the Greatest* is a love song to the songwriting and recording achievements of Paul, John, George, and Ringo after each struck out on his own. In this creative history, Jackson selects the best songs by each in his solo career and organizes them into fantasy albums they might have formed had they stuck it out. This romp through the post-Beatle history of each artist delves into the circumstances behind the composition, recording, and reception of each work, offering a refreshing take on how spectacular much of the Beatles' second act truly is. Jackson assesses the over seventy albums and nine hundred songs they collectively released, selecting the crème de la crème of their output.
