"They're always happy." Rory James has worked hard all his life to become a citizen of the idyllic city-state of Beulah. Like every other kid born in the neighboring country of Tophet, he's heard the stories: No crime or pollution. A house and food for everyone. It's perfect, and Rory is finally getting a piece of it. So is Tate Patterson. He's from Tophet, too, but he's not a legal immigrant; he snuck in as a thief. A city without crime seems like an easy score, until he crashes into Rory during a getaway and is arrested for assaulting a citizen. Instead of jail, Tate is enrolled in Beulah's Rehabilitation through Restitution program. By living with and serving his victim for seven years, Tate will learn the human face of his crimes. If it seems too good to be true, that's because it is. Tate is fitted with a behavior-modifying chip that leaves him unable to disobey orders-any orders, no matter how dehumanizing. Worse, the chip prevents him from telling Rory, the one man in all of Beulah who might care about him, the truth: in a country without prisons, Tate is locked inside his own mind.

Twenty years after a deadly pandemic ravaged the world, Darragh Fearghal Anluan and the people of his village have carved out a hard but simple life in the Irish countryside. But with winter comes sickness, and Darragh must travel to Dublin in search of medicine. What he finds there is a ruined city ruled by a madman, where scavenging is punishable by death . . . or conscription. Ciaran Daly came to Ireland with aid and optimism, but instead was enslaved by the so-called King of Dublin. After months of abuse from the king and his men, he has no reason to believe this newcomer will be any different. Except Ciaran finds himself increasingly drawn to Darragh, whose brutish looks mask how sweet and gentle he really is. The tenderness Darragh feels for the king's treasured pet is treason, but it's hardly the only betrayal brewing in this rotten kingdom. Rebellions and rival gangs threaten the king's power, but not nearly as much as Darragh and Ciaran-whose only hope for freedom is the fall of the king.

No one blends humor and sensuality like New York Times bestselling author Lynsay Sands in this captivating story of feuding nobles forced to marry...and destined to fall in love Love thy neighbor, 'tis said. A fine idea, except when the neighbor in question is Lord Holden. Lady Helen Tiernay has complained frequently about his treatment of his people. Too frequently perhaps, for the king intends to curb their constant bickering by ordering them to wed. Helen can't refuse a royal decree, but she'll do everything possible to drive away her devilishly attractive husband-to-be. Holden has faced all manner of horrors on the battlefield. But marriage to "the tyrant of Tiernay" is still a worrying prospect-until he glimpses Helen in the flesh. What flesh it is...soft, lush, made for his touch. If she weren't so intent on thinking up devious ways to prevent consummating their bond, Helen would see how perfect they are together, and that a marriage begun as enemies can turn to absolute pleasure.

"Outside the back window Alice can see the outlines of the garden, some of the furrows visible under the snow, stretching away in long thin rows. She can't imagine doing the garden without her dad. It's his thing; she's always thought of herself as his assistant at best. She can't imagine doing anything without her dad and she starts to feel like she can't breathe. And then she looks at him. Just looks at him as he watches the fire with muffin crumbs on his lap. 'I'll write to you.' 'I know, sweetheart.' 'Every day.'" --From Alice Bliss When Alice Bliss learns that her father, Matt, is being deployed to Iraq, she's heartbroken. Alice idolizes her father, loves working beside him in their garden, accompanying him on the occasional roofing job, playing baseball. When he ships out, Alice is faced with finding a way to fill the emptiness he has left behind. Matt will miss seeing his daughter blossom from a tomboy into a full-blown teenager. Alice will learn to drive, join the track team, go to her first dance, and fall in love, all while trying to be strong for her mother, Angie, and take care of her precocious little sister, Ellie. But the smell of Matt is starting to fade from his blue shirt that Alice wears everyday, and the phone calls are never long enough. Alice Bliss is a profoundly moving coming-of-age novel about love and its many variations--the support of a small town looking after its own; love between an absent father and his daughter; the complicated love between an adolescent girl and her mother; and an exploration of new love with the boy-next-door. These characters' struggles amidst uncertain times echo our own, lending the novel an immediacy and poignancy that is both relevant and real. At once universal and very personal, Alice Bliss is a transforming story about those who are left at home during wartime, and a teenage girl bravely facing the future.

Dave is a simple orc with a simple life. He has his dragons, his music, and his friends, and that's mostly enough. Sometimes though, he gets lonely and wishes there was someone he could share his interests with-maybe even someone he could hold hands with, although he knows it's not likely that there's a special person out there for someone who's seven feet tall and green to boot. So it's a delightful surprise when Simon Perrin, the new kitchen boy, not only knows all about dragons, but seems to like Dave as much as Dave likes him back. But all is not what it seems, and Simon is hiding a dark secret. There are sinister forces at work, and Simon needs to find a way out of the situation he's trapped in. If he doesn't, it could mean disaster for the entire kingdom of Aquillon, and an even more terrible fate for Pie, Dave's beloved fingerdragon.When Dave discovers Simon and Pie are in danger, he's swept up in a rescue mission that spans an ocean, tests a friendship, and has more dragons that you could poke a lute at. It's going to be a wild ride-literally.

Asa and his longtime partner, Javier, are looking forward to a cozy, kinky Christmas together. But when Asa discovers his coworker Drew has nowhere to go for the holidays, he invites Drew home for dinner. His motives aren't entirely pure: Asa and Javier are both dominant, and occasionally arrange one night stands with submissives. Asa's been hot for Drew for months, even though he has no proof Drew is kinky. Drew has wanted Asa since the day they met. Drew would never come between Asa and his partner, but that doesn't stop him from fantasizing about Asa doing filthy, painful, incredible things to him. He accepts Asa's dinner invitation reluctantly, not eager to witness Asa and Javier's domestic bliss firsthand. When Javier discovers Drew's profile on a BDSM site shortly before Drew's arrival, the game changes. A bold proposition leads to Asa and Jav sharing a night of play and passion with a dinner guest who's nowhere near as innocent as he looks. But as their not-so-silent night progresses, all three find themselves on shaky ground. Can they keep this arrangement no strings attached? Or is there a way for each man to get what he really wants for Christmas? A 33,000 word novel previously published in the anthology RATED: XXX-mas.

What does it take to be happy? How happy is happy enough? And what does "happy" mean, anyway? So asks Sally Farber-wife, mother, daughter, friend, working woman, and lover-in this wise and funny novel about a woman's search for happiness in some of the right, and a few of the wrong, places. Summer in the city looms long for Sally Farber when she sends her two daughters off to camp for the first time. Suddenly freed of her usual patterns in a city that becomes a grown-up's playground,, she embarks on a journey unlike any she's ever had-filled with guilty pleasures and guilty pains. Caught between the past (cleaning out her childhood apartment as her demanding mother offers edicts from South Carolina) and the future (facing her first semi-empty nest), Sally finds herself unexpectedly involved with a powerful, unpredictable man. And as she researches a book whose very topic is happiness, she must weigh the relative merits of prescriptions for its attainment offered by Aristotle and the Dalai Lama, Freud and Charles Schulz, scented candles and Zolof, her mother and her best friend. The answer comes, in the end, from a surprising discovery, in this rich and original novel about how we can find, and ultimately embrace, both happiness and love.
