Written by four prominent academics, this is one of South Africa's best-selling computer books. It was written specifically for those managing or using computers for the first time, be they accountants, lawyers, or other business people. It is also an ideal introduction to business computing for the commerce student.

Die Anwendungsprogramme des Office-Pakets stellen heute in der Wirtschaftspraxis ein wichtiges Arbeitsmittel dar. Auch die Nutzung des Internet als Informationsquelle und Kommunikationsmittel ist weithin in der täglichen Arbeit unverzichtbar geworden. Das vorliegende Lehrbuch bietet Studenten und Praktikern eine kompakte Einführung in die Office-Programme, die Grundlagen der EDV und das Internet: -Hardware, Software und Netze; Word, Access, Excel, Powerpoint und die Möglichkeiten der Internet-Nutzung. Das Buch zeichnet sich durch klare Darstellung und Beschränkung auf das Wesentliche aus. Es geht über die Bedienung der Programme hinaus, indem es weiterführende Informationen zum effektiven Umgang mit den Programmen gibt. Die Verwendung eines durchgängigen Fallbeispiels macht es besonders anschaulich.

Business Computing umfasst jene Bereiche der EDV, mit denen sehr viele EDV-Anwender im Geschäfts- und Ausbildungsumfeld in Berührung kommen. Das Buch führt in die Anwendungsprogramme WORD 2003, EXCEL 2003, ACCESS 2003 und POWERPOINT 2003 ein. Es zeichnet sich dabei durch die Konzentration auf das Wesentliche aus. Da die meisten Anwender erfahrungsgemäß nur einen kleinen Teil des gesamten Leistungsspektrums für ihre Arbeit benötigen, hebt das Buch diese Komponenten besonders heraus. Es zielt darauf ab, durch eine Verringerung der Komplexität die Orientierung zu erleichtern. An geeigneten Stellen vermittelt Ihnen das Buch darüber hinaus auch Hintergrundinformationen, die ein noch zielführenderes Arbeiten mit den Anwendungsprogrammen ermöglichen. So gibt es beispielsweise im Powerpoint-Teil Hinweise zur allgemeinen Gestaltung von Präsentationen. Im Teil über Datenbanken widmet es der Konzeption von Datenbanken ein ganzes Kapitel.

Summary: Software applications covered include the Windows Operating System, Internet Explorer, Word, Excel Spreadsheet, PowerPoint, and Access database.
