An in-depth biography of Field Marshal Erwin Rommel written with the cooperation of Rommel's son, by a renowned military analyst and historian who is himself a general.

Erwin Rommel was a complex man: a born leader, brilliant soldier, a devoted husband and proud father; intelligent, instinctive, brave, compassionate, vain, egotistical, and arrogant. In France in 1940, then for two years in North Africa, then finally back in France again, at Normandy in 1944, he proved himself a master of armored warfare, running rings around a succession of Allied generals

who never got his measure and could only resort to overwhelming numbers to bring about his defeat. And yet for all his military genius, Rommel was also naive, a man who could admire Adolf Hitler at the same time that he despised the Nazis, dazzled by a Führer whose successes blinded him to the true nature of the Third Reich. Above all, he was the quintessential German patriot, who ultimately would refuse to abandon his moral compass, so that on one pivotal day in June 1944 he came to understand that he had mistakenly served an evil man and evil cause. He would still fight for Germany even as he abandoned his oath of allegiance to the Führer, when he came to realize that Hitler had morphed into nothing more than an agent of death and destruction. In the end Erwin Rommel was forced to die by his own hand, not because, as some would claim, he had dabbled in a tyrannical

conspiracy, but because he had committed a far greater crime – he dared to tell Adolf Hitler the truth. In Field Marshal historian Daniel Allen Butler not only describes the swirling, innovative campaigns in which Rommel won his military reputation, but assesses the temper of the man who finally fought only for his country, and no dark depths beyond.

Field Marshal Erwin Rommel exerted an almost hypnotic influence not only over his own troops but also over the Allied soldiers of the Eighth Army in the Second World War. Even when the legend surrounding his invincibility was overturned at El Alamein, the aura surrounding Rommel himself remained unsullied. In this classic study of the art of war Rommel analyses the tactics that lay behind his success. First published in 1937 it quickly became a highly regarded

military textbook, and also brought its author to the attention of Adolph Hitler. Rommel was to subsequently advance through the ranks to the high command in the Second World War. As a leader of a small unit in the First World War, he proved himself an aggressive and versatile commander, with a reputation for using the battleground terrain to his own advantage, for gathering intelligence, and for seeking out and exploiting enemy weaknesses. Rommel graphically describes his own achievements, and those of his units, in the swift-moving battles on the Western Front, in the ensuing trench warfare, in the 1917 campaign in Romania, and in the pursuit across the Tagliamento and Piave rivers. This classic account seeks out the basis of his astonishing leadership skills, providing an indispensable guide to the art of war written by one of its greatest exponents.

Nicknamed 'The Desert Fox' for his cunning command of the Afrika Korps, Erwin Rommel remains one of the most popular and studied of Germany's World War II commanders. He got his first taste of combat in World War I, where his daring command earned him the Blue Max, Germany's highest decoration for bravery. He followed this up with numerous successes early in World War II in both Europe and Africa, before facing his biggest challenge – organizing the defence of France. Implicated in the plot to kill Hitler, Rommel chose suicide over a public trial. This book looks at the life of this daring soldier, focusing on his style of command and the tactical decisions that earned him his fearsome reputation.

This is the strange and fascinating life of Erwin Rommel, from his days as a youth in Imperial Germany—when he had a child out of wedlock with an early girlfriend—through his lauded military exploits during World War I to his death by suicide during World War II, after he attempted a failed coup against Hitler. Rommel was a man of contradictions, a soldier who wrote a bestselling book about World War I, a commander who went from commanding Hitler's bodyguard to trying to kill him, a serious military mind who was known for participating in practical jokes. In *Desert Fox*, author Samuel Mitcham (*Bust Hell Wide Open*) confronts the truth about Rommel and takes a close look at his military actions and reflections.

This study focuses on the operational level of war—that level which links tactics to strategy. The study seeks to identify and define principles applicable to the operational level of war. If valid, those principles ought to guide and/or govern the conduct of war at the operational level. Also, understanding of operational principles and the theoretical foundations of the operational level of war can assist US Army commanders and staff officers in preparation for and conduct of war at that level. Selected campaigns and battles conducted by Erwin Rommel and Bernard Montgomery during World War II are analyzed. The objective of the analyses is to determine what each commander considered as guides in making battlefield decisions. The research is not limited, however, to specific campaigns and battles. A description of each commander

is offered; that is, his experiences and the evolution of his military thought. The prevailing German and British military doctrines are also reviewed. Interestingly, the criteria each commander used in making battlefield decisions-his operational principles-are apparent by understanding the man and the doctrine; the campaign and battle analyses serve to substantiate those principles. While Rommel and Montgomery represented different styles of war-fighting, maneuver and attrition respectively, they demonstrated a remarkable commonality in battlefield decision-making...Apparently the operational level of war can accommodate a broad range of war-fighting styles and instruments. The implications for the US Army derived from this study cover a wide range of subjects. Some involve organization, training, and preparation of operational-
