International business refers to the trade of goods, services, technology, capital and/or knowledge across national borders and at a global or transnational scale. It involves cross-border transactions of goods and services between two or more countries. Transactions of economic resources include capital, skills, and people for the purpose of the international production of physical goods and services such as finance, banking, insurance, and construction. International business is also known as

Focused Operations Management shows how to do much more with existing resources in terms of throughput, response time and quality. It provides a system view and will touch upon performance measures, operations management, quality, cost-accounting, pricing, and above all, value creation and value enhancement.

Dedicated to Professor Peter Buckley, OBE, this volume of Progress in International Business Research explores the new challenges for MNEs, SMEs (small and medium sized enterprises) and INVs (International New Ventures) emerging from this changing and increasingly unpredictable political, economic, social and technological VUCA world.
