"Lawnboy is, quite simply, the real thing, a novel of mystery and great beauty." -Michael Cunningham They all thought I was good-natured, upright and responsible, generous, affectionate, and kind, and of course I could be those things, but there was much more to me than that, a side that unnerved even myself, and this side included William. Seventeen-year-old Evan's adventure begins with mowing a neighbor's lawn, a summer job that leads him into an unpredictable world of desire and betrayal. Estranged from his parents and his older brother, he moves in with forty-one-year-old William and begins a disastrous series of attempts to make a new home. Must he make a choice between his family and desire? First published to wide acclaim in 1999, Lawnboy by Paul Lisicky wanders the lush and tumultuous landscape of the early 1990s, its south Florida setting as fertile and troubling as Evan's inner life.

Things get out of hand for a twelve-year-old boy when a neighbor convinces him to expand his summer lawn mowing business.

Primary-grade teachers face an important challenge: teaching children how to read while enabling them to build good habits so they fall in love with reading. Many teachers find the independent reading workshop to be the component of reading instruction that meets this challenge because it makes it possible to teach the reading skills and strategies children need and guides them toward independence, intention, and joy as readers. In Growing Readers, Kathy Collins helps teachers plan for independent reading workshops in their own classrooms. She describes the structure of the independent reading workshop and other components of a balanced literacy program that work together to ensure young students grow into strong, well-rounded readers. Kathy outlines a sequence of possible units of study for a yearlong curriculum. Chapters are devoted to the individual units of study and include a sample curriculum as well as examples of mini-lessons and reading conferences. There are also four " Getting Ready " sections that suggest some behind-the-scenes work teachers can do to prepare for the units. Topics explored in these units include: print and comprehension strategies; reading in genres such as poetry and nonfiction; connecting in-school reading and out-of-school reading; developing the strategies and habits of lifelong readers. A series of planning sheets and management tips are presented throughout to help ensure smooth implementation. We want our students to learn to read, and we want them to love to read. To do this we need to lay a foundation on which children build rich and purposeful reading lives that extend beyond the school day. The ideas found in Growing Readers create the kind of primary classrooms where that happens.
