Marketing Management is designed to cater to syllabi requirements of courses on marketing. Steeped in the core concepts of marketing, the text nonetheless incorporates the latest trends in marketing and showcases many of the path breaking efforts by marketers in recent past. This thoroughly revised 6th edition includes discussion on most widely discussed topics in the subject in recent past. Alongside, the text captures the core concepts comprehensively and follows an application-based approach. Salient Features: • New cases on leading new age organizations such as Hotstar, Oyo, Airbnb, Netflix, Amazon Prime, Uber etc. • New sections on digital marketing, social media marketing, defining brand etc. • Updated and detailed coverage on marketing environment, retail business model, distribution management, organization buying behavior etc. • More engaging and logically driven revised chapter structure • Thoroughly revised chapters focusing on how markets have evolved in recent past

This series is designed to cover all aspects of sound financial management for local governments in developed and developing countries and economies in transition. Concepts of good governance, transparency and accountability are woven into the text of every chapter, and the needs and potential obstacles to greater decentralization and democracy are highlighted. Each volume is self-contained with its own Trainer's Guide, exercises and web resources. Chapters are divided into basic and advanced concepts and the detailed relationship of each topic to the others covered in the series is explained.

This book is purposefully styled as an introductory textbook on circular economy (CE) for the benefit of educators and students of universities. It provides comprehensive knowledge exemplified by practices from policy, education, R&D, innovation, design, production, waste management, business and financing around the world. The book covers sectors such as agriculture/food, packaging materials, build environment, textile, energy, and mobility to inspire the growth of circular business transformation. It aims to stimulate action among different stakeholders to drive CE transformation. It elaborates critical driving forces of CE including digital technologies; restorative innovations; business opportunities & sustainable business model; financing instruments, regulation & assessment and experiential education programs. It connects a CE transformation for reaching the SDGs2030 and highlights youth leadership and entrepreneurship at all levels in driving the sustainability transformation.
