BUSY HUMAN'S SALES PITCHYou are a busy human. You don't have time to read piles of books, think about the best way to understand them, and then write (possibly) the most awesome notes on the planet. Three former CIA officers share their techniques for lie detection, outlining methods for identifying deceptiveness as revealed by verbal and non-verbal behaviors from facial expressions and grooming gestures to invoking religion and using qualifying language.

Describes gestures and other clues that indicate a person may be lying, explains why people lie, and discusses the controversy surrounding lie detector tests.

Lying is a normal part of human communication and is sometimes necessary to protect someone ' s feelings, but there are also malicious lies meant to deceive, cheat, and defraud. You can ' t always rely on what comes out of someone ' s mouth. It doesn ' t take mind reading superpowers to be able to tell when someone is lying—but it does take special skills and a little practice. In Lie Detecting 101, international expert in undercover operations Dr. David Craig provides readers with an easy-to-follow guide on applying lie-detection skills to your everyday life. From the simple skills of bargaining, making a purchase, or dealing with children, to the more serious business of negotiating a contract or identifying infidelity, Craig delivers simple but effective tips and techniques we can all use to see behind the fa ade and get to the truth. Lie Detecting 101 is the culmination of over twenty years of practical criminology and hundreds of hours of academic research. Split into three parts, the book looks at understanding lies and how to detect lies, and includes an easy reference section that summarizes all the main points. With full-color photographs and practical examples, Lie Detecting 101 provides anyone with the tools to be a human lie detector. The mystery of what a person is really thinking is finally unlocked in this fascinating and informative book.

Getting someone to tell the truth is an essential skill that very few people possess. In the boardroom, classroom, or our own homes, every day we interact with others and try to get the truth from them. People are often untruthful out of fear of negative consequences associated with divulging information. But if a person is made to forget the long-term outcomes of lying, he or she can be influenced to disclose sensitive information that's being withheld. The aim is to encourage the person to remain in short-term thinking mode, shifting focus away from the long-term ramifications of telling the truth. As former CIA agents and bestselling authors of Spy the Lie, Philip Houston, Mike Floyd, and Susan Carnicero are among the world's best at detecting deceptive behavior and eliciting the truth from even the most accomplished liars. Get the Truth is a step-by-step guide that empowers readers to elicit the truth from others. It also chronicles the fascinating story of how the authors used a methodology Houston developed to elicit the truth in the counterterrorism and criminal investigation realms, and how these techniques can be applied to our daily lives. Using thrilling anecdotes from their careers in counterintelligence, and with easy-to-follow instructions, the authors provide a foolproof means of getting absolutely anybody to give an honest answer. Get the Truth is the easy and effective way to learn how to get the truth every time.
