Boot camps/what are their effects on criminal behavior? Public and political support for boot camps as alternative correctional facilities has rarely faltered since their inception decades ago, though their efficacy remains uncertain. Rehabilitation Issues, Problems, and Prospects in Boot Camp explores all facets of the controversial issue, from the attitudes and perceptions of the public, to the political motivations in maintaining them, on to the latest research on the camps and their graduates. Respected authorities discuss boot camps' effectiveness on diverse groups according to age, gender, race, and correctional facility. Cost factors between boot camps and other correctional institutions are compared, along with the latest criminal recidivism data. Boot camps provide inmates with an uncomfortable, paramilitary-style environment with an eye toward shorter incarceration time, lower costs, and more positive effects on criminal behavior. Does this correctional model work as anticipated? Rehabilitation Issues, Problems, and Prospects in Boot Camp gives you the facts, revealing the public and political arguments for and against boot camps as well as the research on the theoretical predictors of criminal recidivism and the differing attitudes of attendees toward the facilities according to gender and race. Critical policy issues are identified and discussed in-depth, with particular emphasis given to the positive and negative aspects of rehabilitation possibilities of boot camps. Helpful tables clearly illustrate statistics while extensive references provide opportunities for further insight. Rehabilitation Issues, Problems, and Prospects in Boot Camp explores questions such as: criminal recidivism/what are the theoretical predictors? what effect does gender have on criminal recidivism? what is the effect of this hypermasculine paramilitary prison environment have on males? and females? what are the differences between Native American and non-Native American perceptions of boot camp? is the perceived severity of boot camp different for gender? what is the process for policymaking in creating and maintaining boot camps? what role does politics play in the continuation of boot camps? what corrections to boot camp facilities should be made based upon evidence and research? Rehabilitation Issues, Problems, and Prospects in Boot Camp is a thorough examination of the social and political issues about boot camps that makes essential reading for educators, students, sociologists, criminologists, psychologists, counselors, and criminal justice professionals.

The Obvious Secret: A Discipleship Journey to Christian Maturity By: Bruce C. Steffens The Obvious Secret explores the various major beliefs of the Christian faith from a logical and analytical standpoint. It is intended for two purposes. First, it is a resource to develop Christian discipleship curriculum for teachers and instructors. Secondly, it is self-study resource for seekers, new believers, and even established believers. It contains a systemic approach to understand the [why] of what we believe and then helps one to establish and deepen a personal relationship with God. The book is not intended to tell someone what to believe, but rather to give the logical reasons related to belief topics and allow a person to discover the truth of the belief for themselves. However, without a vibrant relationship with God, all the understanding of God's principles and truths are academic. A mature disciple is the person whose best friend is God and who helps those around him or her to know God's love and create their own relationship with God.

Correctional Boot Camps: Military Basic Training or a Model for Corrections? provides the most up-to-date assessment of the major perspectives and issues related to the current state of boot camps. The book goes beyond cursory examinations of the effectiveness of boot camps, presenting an in-depth view of a greater variety of issues. Correctional Boot Camps examines empirical evidence on boot camps drawn from diverse sources including male, female, juvenile, and adult programs from across the nation.

Includes: historical perspective; an overview of boot camp goals, components, and results; state correctional programs in N.Y. State, Illinois, and Georgia; the Federal system; boot camps in county jails (Santa Clara County, CA); juvenile boot camps (California and Florida); different program models (discipline in Georgia; substance abuse programming in adult correctional boot camps; boot camps as an alternative for women); program design and planning (multisite studies; boot camps and prison crowding); and the future of boot camps. Charts, tables and photos.

You're about to discover how to prepare yourself for the biggest decision you've probably ever had to make in your life. It isn't an easy one and not a decision you should make lightly. In my book I describe from first hand experience of what you'll be running into. I give advice based on first hand experience on what to know and recommendations you should heed before joining. The best way to prepare for joining the Navy is to do your research and know everything you can so you can make an informed decision.

This is a core text/reader for undergraduate and graduate corrections courses. It can serve either as a supplement to a core textbook or as a stand-alone course text. Each chapter begins with 15 pages of text that includes photos, figures and tables and is followed by carefully selected articles authored by leading scholars in the field.

The first generation of women expecting to be executives offers survival techniques for today's young business women.

Living Environment - Living Environment -

In the middle of the night Garrett is taken from his home to Harmony Lake, a boot camp for troubled teens. Maybe some kids deserve to be sent there, but Garrett knows he doesn't. Subjected to brutal physical and psychological abuse, he tries to fight back, but the battle is futile. He won't be allowed to leave until he's admitted his "mistakes" and conformed to Harmony Lake's standards of behavior. And there's no way to fake it. Beaten, humiliated, and stripped of his pride, Garrett's spirit is slowly ebbing away. Then he hears whispers of an escape plot. It's incredibly risky -- if he's caught, the consequences will be unthinkable -- but it may be his only way out. In this tense, riveting novel, award-winning YA author Todd Strasser reveals what really goes on in highly secretive -- and notoriously dangerous -- boot camps, a stealth prison system where any teenager under the age of eighteen can be imprisoned at his parents' whim.

If you have never failed your PT Test, then this little book is not for you. Sorry, save your money and go buy a Monster instead.If have recently failed, concerned about an upcoming assessment, want to get leadership off your back, tired of bad advice that doesn't work from people who have never failed, never want your PT Test to interfere with your career ever again, just plain frustrated, or have troops that have failed, keep reading!I have gone from failing and being in "the program" to ending my career with a 97.5. My goal is to produce the same results for all the Airmen out there, who are struggling with the PT Test, themselves.This is not going to turn you into a machine overnight. This not my version of P90X. This is not Weight Watchers. I am not going to sell you a magic drink powder. I am not going to ask you to join a network marketing or multi level marketing scheme. What I am going to give you is information and guidance.The Air Force Physical Fitness Assessment is broken down to three parts. Strength, Aerobic Endurance, and Waist Measurement. In this book I will give you unconventional methods to address each of these.I will help you Pass Your PT Test by covering the following:"Strength (push-ups and sit-ups)- I can teach you how to improve these numbers drastically in 30 days by teaching you how to "grease the groove.""Aerobic Endurance (1.5 mile run)- This one isn't so easy. We will address ankle and foot mobility, running efficiency and training to specifically target you heart and lungs."Body Composition (waist measurement)- This can be easy but in most cases we really need to spend some time on this. We will cover food addition, inflammatory foods and stress management.Although I am retired, I still want to serve. The best way I see that's possible is to apply my years of research and experience to helping Airman never let the PT Test get in the way of a 5 EPR, promotion, or assignment ever again.
