The dinner with Emma was a gift after the tense period in Budapest. While eating, I looked at her face as she was talking, animated, relaxed, laughing, with short periods of seriousness. I wished I could take pictures in those moments, moments that I had missed, moments that I usually miss. I often thought about my pictures, what sort of photographer was I? A portrait photographer? A journalist? In that moment, thinking of taking pictures of her while she was eating, of the way she closed her eyes with each bite, and laughed under the calming light in the room, I considered myself a photographer of moods. Mark works in a current affairs magazine as a photographer. He spends his time bickering and philosophising with his friends. Young to middle aged, Mark and his friends pass their moments avoiding commitments, shunning what goes on around them. There are times to make decisions often made through no action. Responsibilities dissolve in comfort, and emotions seem to be foreign phenomena in their life under illusion of personal liberty. Can this all change?

To control the migration of radioactive and hazardous wastes currently contained underground, barriers made of natural materials and man-made substances are constructed atop, and possibly around, the contaminated area. Barrier Technologies for Environmental Management provides a brief summary of the key issues that arose during the Workshop on Barriers for Long-Term Isolation. Recurring themes from the session include the importance of quality control during installation, followed by periodic inspection, maintenance, and monitoring, and documentation of installation and performance data. The book includes papers by the workshop presenters.

A scandalous entanglement traps a woman of virtue in an unforgettable Regency romance from the bestselling author praised as " a major find " (Mary Balogh). When word reaches Deirdre Fenton that her brother is pursuing the notorious actress Mrs. Dewinters, she immediately sets about extricating her incorrigible sibling from his latest folly. But her brother has gone too far this time for his—or Deirdre ' s—own good. For Mrs. Dewinters is under the powerful protection of a war hero, the Earl of Rathbourne . . . the very man Deirdre had summarily rejected years before. And the Earl is not a man to forgive an insult—or forget a lady as passionate as Deirdre Fenton . . . If Rathbourne has learned one thing during his years fighting on the Peninsula, it is to get what he wants by means fair or foul. Now he has Deirdre right where he wants her: at his mercy. " A major, major talent, Ms. Thornton takes her rightful place as a genre superstar. " —RT Book Reviews
