This book describes the essential components of the SCION secure Internet architecture, the first architecture designed foremost for strong security and high availability. Among its core features, SCION also provides route control, explicit trust information, multipath communication, scalable quality-of-service guarantees, and efficient forwarding. The book includes functional specifications of the network elements, communication protocols among these elements, data structures, and configuration files. In particular, the book offers a specification of a working prototype. The authors provide a comprehensive description of the main design features for achieving a secure Internet architecture. They facilitate the reader throughout, structuring the book so that the technical detail gradually increases, and supporting the text with a glossary, an index, a list of abbreviations, answers to frequently asked questions, and special highlighting for examples and for sections that explain important research, engineering, and deployment features. The book is suitable

Today's 18-to-40-year-olds make for a notoriously elusive group of consumers: they're savvy, sophisticated, and particular. They're all but immune to traditional advertising and have an instinctive sense of quality and fair pricing. Inundated with choices, they are drawn to brands that satisfy not just what they need, but what they crave. At the same time, these consumers are spending money like it's going out of style. Generation X has firmly refuted its slacker reputation and is nearing the height of its earning potential. Generation Y has more buying power than any previous generation of teens and twentysomethings. But how to win their attention and loyalty? In *Mind Your X's and Y's*, Lisa Johnson proves that the buying habits of 18-to-40-year-olds can be anticipated. Johnson, coauthor of *Don't Think Pink* and a leading marketing consultant, pinpoints the new rules

of engagement for this Connected Generation. Based on her own and others' groundbreaking research, she looks into the heart of the Gen X and Y psyche to identify its ten core cravings -- for adventure, for high-concept design, for new families and social networks, and for personal storytelling, to name a few. This revolutionary book is packed with fascinating case studies of established and breakaway brands from every major industry, interviews with dozens of maverick thinkers and hundreds of consumers, and numerous revealing statistics. Johnson analyzes the scope of each craving to determine how it drives specific buying behaviors and offers relevant data that illustrate its impact. Mind Your X's and Y's equips anyone who wants to reach these consumers -- brand managers and their advertising, online, creative, packaging, events, and promotions teams; small-business owners and their marketing staff; advertising agencies and specialists -- with the know-how to transform market research into profitable strategies. Members of Generations X and Y are the most coveted and hard-to-reach consumers in the marketplace. Mind Your X's and Y's is a master class in how to create compelling brands for this Connected Generation.

Steers buyers through the the confusion and anxiety of new and used vehicle purchases like no other car-and-truck book on the market. "Dr. Phil," along with George Iny and the Editors of the Automobile
