A New York Times Book Review Notable Book of the Year A polemical, ground-breaking study of Elizabethan England that reclaims Ann Hathaway's rightful place in history. Little is known about the wife of the world's most famous playwright; a great deal, none of it complimentary, has been assumed. The omission of her name from Shakespeare's will has been interpreted as evidence that she was nothing more than an unfortunate mistake from which Shakespeare did well to distance himself. While Shakespeare is above all the poet of marriage—repeatedly in his plays, constant wives redeem unjust and deluded husbands—scholars persist in positing the worst about the writer's own spouse. In *Shakespeare's Wife*, Germaine Greer boldly breaks new ground, combining literary-historical techniques with documentary evidence about life in Stratford, to reset the story of Shakespeare's marriage in its social context. With deep insight and intelligence, she offers daring and thoughtful new theories about the farmer's daughter who married England's greatest poet. Part biography, part history, *Shakespeare's Wife* is a fascinating reconstruction of Ann's life, and an illuminating look at the daily lives of Elizabethan women, from their working routines to the rituals of courtship and the minutiae of married life. In this thoroughly researched and controversial book, Greer steps off the well-trodden paths of orthodoxy, asks new questions, and begins to right the wrongs done to Ann Shakespeare.

With deep insight and intelligence, she offers daring and thoughtful new theories about the farmer's daughter who married England's greatest poet, painting a vivid portrait of a remarkable woman. A passionate and perceptive work of first-rate scholarship that reclaims this maligned figure from generations of scholarly neglect and misogyny, *Shakespeare's Wife* poses bold questions and opens new fields of investigation and research.

Little is known of the wife of England's greatest playwright. In play after play Shakespeare presents the finding of a worthy wife as a triumphant denouement, yet scholars persist in believing that his own wife was resented and even hated by him. Here Germaine Greer strives to re-embed the story of their marriage in its social context and presents new hypotheses about the life of the farmer's daughter who married our greatest poet. This is a daring, insightful book that asks new questions, opens new fields of investigation and research, and rights the wrongs done to Ann Shakespeare.

Examines representations of Anne Hathaway from the eighteenth century to contemporary portrayals in theatre, biographies and novels.

Race relations are one of the most fraught issues in the world. Almost everywhere in the world where different races rub against each other there is racism and friction. The problem is most acute with displaced indigenous people. White Australia - with the history of its terrible treatment of the Aborigines is an extreme case study. In this brilliant essay, Germaine Greer shows how it could, should and must be different. The problem is not the Aborigines but the 'settler society' and what it has done to the country. She shows how Australians must embrace their aboriginality. By extension the argument applies to the whole world and to the unequal relationships between people. But as always with Germaine Greer it is argued with wit, humour, anger, passion, and superbly memorable prose. Germaine Greer is worth reading on any subject; she is at her most powerful and polemical when faced with real wrongs that need righting.

"The best feminist book so far . . . A book with personality, a book that knows the distinction between the self and the other, a book that combines the best of masculinity and femininity." - New York Times A ground-breaking, worldwide bestselling study of women's oppression that is at once an important social commentary and a passionately argued masterpiece of polemic—and a feminist classic The publication of Germaine Greer's *The Female Eunuch* in 1970 was a landmark event, raising eyebrows and ire while creating a shock wave of recognition in women around the world with its steadfast assertion that sexual liberation is the key to women's liberation. Today, Greer's searing examination of the oppression of women in contemporary society is both an important historical record of where we've been and a shockingly relevant treatise on what still remains to be achieved.

For years I had wandered Australia with an aching heart. Everywhere I had ever travelled across the vast expanse of the fabulous country where I was born I had seen devastation, denuded hills, eroded slopes, weeds from all over the world, feral animals, open-cut mines as big as cities, salt rivers, salt earth, abandoned townships, whole beaches made of beer cans... One bright day in December 2001, sixty-two-year-old Germaine Greer found herself confronted by an irresistible challenge in the shape of sixty hectares of dairy farm, one of many in southeast Queensland that, after a century of logging, clearing, and downright devastation, had been abandoned to their fate. She didn't think for a minute that by restoring the land she was saving the world. She was in search of heart's ease. Beyond the acres of exotic pasture grass and soft weed and the impenetrable curtains of tangled Lantana came there were Macadamias dangling their strings of unripe nuts, and Black Beans with red and yellow pea flowers growing on their branches? and the few remaining White Beeches, stupendous trees up to 120 feet in height, logged out within forty years of the arrival of the first white settlers. To have turned down even a faint chance of bringing them back to their old haunts would have been to succumb to despair. Once the process of rehabilitation had begun, the chance proved to be a dead certainty. When the first replanting shot up to make a forest and rare caterpillars turned up to feed on the leaves of the new young trees, she knew beyond a doubt that at least here biodepletion could be reversed. Greer describes herself as an old dog who succeeded in learning a load of new tricks, inspired and rejuvenated by her passionate love of Australia and of Earth, the most exuberant of small planets.

Written with passion by experts in their field, concise and accessible books feature color illustrations and explore a sweeping range of topics, including history, philosophy, religion, mathematics and more.

Germaine Greer is one of the most enduring and influential figures of the second wave of the women's movement. *The Female Eunuch* (1970) is one of second-wave feminism's most widely recognised publications and its author has come to embody and indeed expand our understanding of second-wave feminism in a way that few others have. Yet, while Greer's public visibility never seems to wane, her writings and her politics have failed to attract the kind of sustained critical engagement they warrant. This volume represents the first collection of essays to examine Greer, her politics, her writing, and her status as a feminist celebrity. The essays in this collection cover *The Female Eunuch* (1970), Greer's public rivalry with Arianna Stassinopoulos, her time in America, her ideas and politics, and her styling as feminist fashion icon. Many essays include new insights drawn from previously unseen material in the recently launched Germaine Greer Archive at the University of Melbourne, Australia. This book was originally published as a Special Issue of *Australian Feminist Studies*.

This collection tells the life stories of the people whom we know Shakespeare encountered, shedding new light on Shakespeare's life and times.
