Shipboard personnel management onboard a ship is all about governing officers who have bigger responsibilities because they are the ones who make decisions. They represent the administrative staff and it is their role to integrate the crew with the technical aspects so that the relationship between the officers and crew will improve.

Seafaring is a tradition that encompasses a variety of professions and ranks. Each of these roles carries unique responsibilities that are integral to the successful operation of a seafaring vessel. A ship's crew can generally be divided into four main categories: the deck department, the engineering department, the steward's department, and other. The reasoning behind this is that a ship's ...

This book sheds light on the nature and causes of the issues and challenges in human resources in shipping and proposes fresh recommendations to manage them. It explains the multiple forces at play, including the global regulatory regime, national institutional frameworks, industrial practices, trade union responses, and pressures from customers and non-governmental organisations. Human Resource Management in Shipping integrates seafarer employment data released by national maritime authorities and a large body of literature that discusses discrete human resources issues in shipping into a single volume, providing readers with a comprehensive understanding of the issues and challenges within human resources in shipping. Beyond this, the book also offers a fresh perspective on some of the long lasting HRM challenges in the industry, such as skills shortage and seafarer recruitment and

retention. This book aims to provide readers with systematic and in-depth knowledge of human resource management in shipping, and offers researchers a valuable source of reference and a solid foundation on which further development can be built.

We have developed an agent-based model of the US Navy's Manpower and Personnel (M & P) systems, and used the model as a tool to analyze and design M & P policies. The model captures the dynamics of sailor recruitment, training and retention, as well as their performance during missions. Our model makes it possible to gain a deep understanding of the dynamics of the entire M & P systems. We expect our tool to offer several benefits to the Navy,

Download File PDF Shipboard Personnel Management

including the ability to design new policies for existing ships or new ships; the ability to understand the impact of shipboard technologies to increase automation; and the ability to study the impact of various interventions on sailor retention. The model also promises to be useful for personnel management in the commercial sector.
