The Kalashnikov is one of the most modern variations of the Sicilian Defence. As early as move four, Black lashes out in the centre and sets the tone for the rest of the game. Jan Pinski and Jacob Aagaard take a deep look at all the critical ideas and variations of an opening which has received little coverage in chess publishing until now.

The Sicilian Defence is the most popular reply to 1 e4. With 1...c5 Black comes out fighting, immediately challenging any sense of a "natural white advantage". Sicilian Defence players are often very well prepared theoretically and the tremendous dynamism of the Sicilian can often disturb their opponents.

The Classical Dutch is an ambitious and underrated defence to queen's pawn openings. With his first few moves Black creates an asymmetrical pawn structure which unbalances the position from a very early stage, allowing both white and black players to fight for the initiative. Now, for the first time in recent history, International Master Jan Pinski delves into the secrets of the Classical Dutch, studying both the positional motives and tactical nuances for both sides. He deals with the theoretical main lines as well as the crafty side variations, updating the reader on all the new important wrinkles. *Written by an openings expert *Up-to-date coverage of a dynamic opening

Experienced grandmaster Sergey Kasparov presents a surprising way to combat The Sicilian Defence, Black's most popular choice against 1.e4. White unbalances the position of his opponent right from the start, gains space and prepares to steamroll his way to victory. This repertoire is complete and contains many new ideas and improvements on existing opening theory. Kasparov writes lively, personal and highly instructive prose, and includes many exercises to test the

The Italian Game (sometimes referred to as the Giuoco Piano) is one of the oldest openings around, and also one of the first lines a player learns when he or she is introduced to chess. It leads to play that is easy to understand: both sides develop their pieces logically and begin attacks on the opposing kings. The Italian Game gives both White and Black the opportunity to play either aggressively and in gambit fashion, or in a restrained and positional manner. One

of White's most exciting and attacking options is the legendary Evans Gambit, which has been brought back into the limelight in this modern era by such uncompromising players as World number one Garry Kasparov, Alexander Morozevich and England's Nigel Short. In this book, openings expert Jan Pinski investigates the different strategies and tactics in the Italian Game and Evans Gambit. Using model games for both White and Black, Pinski provides crucial coverage of both the main lines and offbeat variations. This book arms the reader with enough knowledge to play the Italian Game and Evans Gambit with confidence. * Written by well known opening theoretician * A useful guide for club and tournament
