The oil industry in the United States has been the subject of innumerable histories. But books on the development of the natural gas industry and the electricity industry in the U.S. are scarce. Edison to Enron is a readable flowing history of two of America's largest and most colorful industries. It begins with the story of Samuel Insull, a poor boy from England, who started his career as Thomas Edison's right-hand man, then went on his own and became one of America's top industrialists. But when Insull's General Electric's energy empire collapsed during the Great Depression, the hitherto Great Man was denounced and prosecuted and died a pauper. Against that backdrop, the book introduces Ken Lay, a poor boy from Missouri who began his career as an aide to the head of Humble oil, now part of Exxon Mobil. Lay went on to become a Washington bureaucrat and energy regulator and then became the wunderkind of the natural gas industry in the 1980s with Enron. To connect the lives of these two energy giants, Edison to Enron takes the reader through the flamboyant history of the American energy industry, from Texas wildcatters to the great pipeline builders to the Washington wheeler-dealers.

Athletes practice. Musicians practice. As a writer you need to do the same. Whether you have dreams of writing a novel or a memoir or a collection of poems, or you simply want to improve your everyday writing, this innovative book will show you how to build your skills by way of practice. Through playful and purposeful exercises, you'll develop your natural aptitude for communication, strengthening your ability to come up with things to say, and your ability to get those things into the minds (and the hearts) of readers. You'll learn to: • Train and develop your writer's powers—creativity, memory, observation, imagination, curiosity, and the subconscious • Understand the true nature of the relationship between you and your readers • Find your writer's voice • Get required writing projects done so you have more time for the writing you want to do • And much more Empowering and down-to-earth, How to Be a Writer gives you the tools you need, and tells you what (and how) to practice so that you can become the writer you want to be.

Hypnotherapist, Roberta Law gets a fast pass to the twilight zone when a ten-year-old client, suffering from acute insomnia, appears to spontaneously regress into a past life and witness her own murder. In order to help her client, Roberta must turn detective and try to solve a crime that may prove to be nothing more than a child's overactive imagination at work. When the investigation leads her into the reclusive world of retired folk-rock icon, Lori Taylor, whose recent reunion with her long-lost daughter seems to be the source of something much more sinister, Roberta is soon to discover that murder has a memory ...

Being happy. It sounds so simple. Yet, it seems that it's always just out of reach for Shannon Ryan. After serving overseas for seven years as a female United States Marine, Ryan is finally getting out the military. But coming home to live with her biker brother and his motorcycle club is more difficult than she thought it would be. Much has changed in the years that she has been gone, including Ellis, her brother's best friend and childhood crush. Ellis 'Dirty' Crane is the second in command for Tormented Souls Motorcycle Club. The only thing he lives for is the club, that is until Ryan comes home, no longer the wild little girl that followed him around. The two things standing in his way of getting what he wants are Patrick, Ryan's brother and leader of the club, and Jeremiah, Ryan's boyfriend. Can Ellis break through Ryan's walls? Burn them and Jeremiah down? Prove to her brother that he's the right man for her? Or is Ryan hiding more than she's letting on?

Offers parents advice on handling common child-rearing problems by using such techniques as looking for good behavior, acknowledging feelings, reducing power struggles, and setting reasonable limits

Presents more than 150 recipes for a range of healthful dishes, in a cookbook that features information on the art of healthy eating.

Uses the tools of Conversaton analysis to show how the decisions of the ExComm were made during the Cuban Missile Crisis, based on audio tapes made by President Kennedy.
