This method of sight-singing can be used with church or school groups, private students or voice classes. Book 1 is written for grade four through to adult singers. This teacher's edition also includes detailed instructions for each lesson. (Adapted from back cover).

All children must have an opportunity to share the joy of choral music participation - whether in school, church, or community choirs. What happens before the singing begins, is critical to supporting, sustaining, and nurturing choirs to give every child the opportunity to experience the wonder of choral singing. Based on years of experience conducting and teaching, Barbara Tagg brings a wealth of practical information about ways of organizing choirs. From classroom choirs, to mission statements, boards of directors, commissioning, auditioning, and repertoire, Before the Singing will inspire new ways of thinking about how choirs organize their daily tasks. The collaborative community that surrounds a choir includes conductors, music educators, church choir directors, board members, volunteers, staff, administrators, and university students in music education and nonprofit arts management degree programs. For all these, Tagg offers a wealth of knowledge about creating a positive environment to support artistry, creativity, dedication, and a commitment to striving for excellence.

Choral Music: A Research and Information Guide, Third Edition, offers a comprehensive guide to the literature on choral music in the Western tradition. Clearly annotated bibliographic entries guide readers to resources on key topics within choral music, individual choral composers, regional and sacred choral traditions, choral techniques, choral music education, genre studies, and more, providing an essential reference for researchers and practitioners. Covering monographs, bibliographies, selected dissertations, reference works, journals, electronic databases, and websites, this research guide makes it easy to locate relevant sources. Comprehensive indices of authors, titles, and subjects keep the volume user-friendly. The new edition has been brought up to date with entries encompassing the latest scholarship, and updated references and annotations throughout, capturing the continued growth of literature on choral music since the publication of the second edition.

This method of sight-singing can be used with church or school groups, private students or voice classes. Book 2 reviews skills and progresses into more difficult sight-singing for advanced high school to university level (or anyone who has completed Book 1). The Teacher's Edition contains all material found in the Vocal Edition, plus detailed instructions for each lesson. (Adapted from back cover).

Who's Who of Canadian Women is a guide to the most powerfuland innovative women in Canada. Celebrating the talents and achievement of over 3,700 women, Who's Who of Canadian Women includes women from all over Canada, in all fields, including agriculture, academia, law, business, politics, journalism, religion, sports and entertainment. Each biography includes such information as personal data, education, career history, current employment, affiliations, interests and honours. A special comment section reveals personal thoughts, goals, and achievements of the profiled individual. Entries are indexed by employment of affiliation for easy reference. Published every two years, Who's Who of Canadian Women selects its biographees on merit alone. This collection is an essential resource for all those interested in the achievements of Canadian women.

The author of The Mark of the Angel explores the tension between love and life, family and individuality, and art and the ordinary in a new novel about a woman's painful choice between a dance career and her family. Reprint. 20,000 first printing.

Jessica Shumway has developed a series of routines designed to help young students internalize and deepen their facility with numbers. The daily use of these quick five-, ten-, or fifteen-minute experiences at the beginning of math class will help build students' number sense. --from publisher description
