closer to her family and start a new career. As Jennifer reconciles her past and present, life takes her down paths that she never expected. On this journey, Jennifer will discover God ' s power to rebuild broken relationships and create new love.

On a warm spring day in 1883, a woman rode across the Brooklyn Bridge with a rooster on her lap. It was the first trip across an engineering marvel that had taken nearly fourteen years to construct. The woman's husband was the chief engineer, and he knew all about the dangerous new technique involved. The woman insisted she learn as well. When he fell ill mid-construction, her knowledge came in handy. She supervised every aspect of the project while he was bedridden, and she continued to learn about things only men were supposed to know: math, science, engineering. Women weren't supposed to be engineers. But this woman insisted she could do it all, and her hard work helped to create one of the most iconic landmarks in the world. This is the story of Emily Roebling, the secret engineer behind the Brooklyn Bridge, from author-illustrator Rachel Dougherty.

The Forth Bridge has long been recognised as one of the finest examples of Victorian engineering on the planet and has achieved an iconic status as one of the great feats of western civilisation since its official opening in 1890. Lavishly illustrated throughout with stunning archive images, Elspeth Wills uncovers the human story behind 'the engineering marvel': the story of the Briggers. It is a story that has never been told before - of ordinary men working on an extraordinary structure in an often hostile and dangerous environment. Recognised throughout the world as an enduring icon of Scotland, the Forth Bridge is more than just a testament to the genius of Victorian engineering, it is a monument to all those who worked to realise its vision and to the scores of lives that were lost in the process. In this groundbreaking new work, Elspeth Wills gives a voice to the forgotten heroes who helped to make the ambition of the Bridge a reality.
