The Making of Americans is more of an experiment than a novel. Gertrude Stein attempts to psychoanalyze all of her characters by not just explaining their parent's personalities, but also their grandparent's personalities. It's an interesting approach, but combined with Stein's repetitious style of writing, it becomes extremely tedious.

knew them, the novel is a philosophical and poetic meditation on identity, on what it means to be human living an everyday, mundane life. Gertrude Stein (1874-1946) was an American novelist, poet, playwright and art collector, best known for *Three Lives*, *The Making of Americans* and *Tender Buttons*. Stein moved to Paris in 1903, and made France her home for the remainder of her life. Picasso and Cubism were an important influence on Stein's writing. For Gertrude Stein, *The Making of Americans* was always her masterpiece. A novel of unparalleled scope and encyclopedic ambition, it is a family history that at once becomes an expose of the possibilities of modern art, language, and psychology. George Moore's study is the first to examine, in its entirety, the novel and its role in the development of Stein's aesthetic. Through a comprehensive analysis of her use of repetition, her theories of art and human character, and her changing

In a series of close readings, Lisa Ruddick shows how Stein, whom she regards as the first truly modern writer in English, absorbed the influence of several of the major thinkers of her day (particularly William James and Freud), and then developed unique perspectives of her own original language and culture.
