Having witnessed the deaths of his mother and stepfather in 1758, Matthieu Zela realizes that he has stopped aging, a situation that hundreds of years later culminates in his frustration about his limited prospects for finding love. By the author of Crippen. Reprint. 15,000 first printing.

Everybody wants more time, which is why on Discworld only the experts can manage it -- the venerable Monks of History who store it and pump it from where it's wasted, like underwater (how much time does a codfish really need?), to places like cities, where busy denizens lament, "Oh where does the time go?" While everyone always talks about slowing down, one young horologist is about to do the unthinkable. He's going to stop. Well, stop time that is, by building the world's first truly accurate clock. Which means esteemed History Monk Lu-Tze and his apprentice Lobsang Ludd have to put on some speed to stop the timepiece before it starts. For if the Perfect Clock starts ticking, Time -- as we know it -- will end. And then the trouble will really begin...

It is 1758 and Matthieu Zela is fleeing Paris for Dover, having witnessed the murder of his mother by his stepfather and his subsequent execution for that crime. With Matthieu is his five year old brother Tomas and his companion and his one true love, Dominique Sauvet. What follows is the story of Matthieu's life. Beginning in murder and ending in redemption, Matthieu's life is characterised by one extraordinary fact: before the eighteenth century ends, he discovers that his body has stopped ageing. At the end of the twentieth century, he is able to look back on a life lived to the full. He has been an engineer, a rogue, a movie mogul, a soldier, a financier, a lover to many, a cable TV executive and more. The tale of his life involves murder, love, treachery, despair, passion, glamour, and, ultimately hope. Spanning two and a half centuries, *The Thief of Time* is a prodigious and entertaining achievement that takes in Hollywood in the 1920s, the Great Exhibition of 1851, the French Revolution, the Wall Street Crash, the formation of the modern Olympic Games in Athens in 1896, and much more. All is interwoven in a dazzling narrative that ingeniously juxtaposes history and personal experience and presents us with a stunning portrait of a life lived selflessly.

When we fail to achieve our goals, procrastination is often the culprit. But how exactly is procrastination to be understood? It has been described as imprudent, irrational, inconsistent, and even immoral, but there has been no sustained philosophical debate concerning the topic. This edited volume starts in on the task of integrating the problem of procrastination into philosophical inquiry. The focus is on exploring procrastination in relation to agency, rationality, and ethics-topics that philosophy is well-suited to address. Theoretically and empirically informed analyses are developed and applied with the aim of shedding light on a vexing practical problem that generates a great deal of frustration, regret, and harm. Some of the key

questions that are addressed include the following: How can we analyze procrastination in a way that does justice to both its voluntary and its self-defeating dimensions? What kind of practical failing is procrastination? Is it a form of weakness of will? Is it the product of fragmented agency? Is it a vice? Given the nature of procrastination, what are the most promising coping strategies?

"Visiting Lagos after many years away, Teju Cole's unnamed narrator rediscovers his hometown as both a foreigner and a local. A young writer uncertain of what he wants to say, the man moves through tableaux of life in one of the most dynamic cities in the world: he hears the muezzin's call to prayer in the early morning light, and listens to John Coltrane during the late afternoon heat. He witnesses teenagers diligently perpetrating e-mail frauds from internet cafes, longs after a woman reading Michael Ondaatje on a public bus, and visits the impoverished National Museum. Along the way, he reconnects with old school friends and his family, who force him to ask himself profound questions of personal and national history. Over long, wandering days, the narrator compares present-day Lagos to the Lagos of his memory, and in doing so reveals changes that have taken place in himself. Just as *Open City* uses New York to reveal layers of the narrator's soul, in *Every Day is for the Thief* the complex, beautiful, generous, and corrupt city of Lagos exposes truths about our protagonist, and ourselves"--
