Mesmerized and somewhat unnerved by his 97-year-old father's vitality and optimism, David Shields undertakes an original investigation of our flesh-and-blood existence, our mortal being. Weaving together personal anecdote, biological fact, philosophical doubt, cultural criticism, and the wisdom of an eclectic range of writers and thinkers—from Lucretius to Woody Allen—Shields expertly renders both a hilarious family portrait and a truly resonant meditation on mortality. *The Thing About Life* provokes us to contemplate the brevity and radiance of our own sojourn on earth and challenges us to rearrange our thinking in crucial and unexpected ways.

In this remarkable blend of memoir and criticism, James Wood, noted contributor to the *New Yorker*, has written a master class on the connections between fiction and life. He argues that, of all the arts, fiction has a unique ability to describe the shape of our lives and to rescue the texture of those lives from death and historical oblivion. The act of reading is understood here as the most sacred and personal of activities, and there are brilliant discussions of individual works -

among others, Chekhov's story "The Kiss," W.G. Sebald's *The Emigrants*, and Penelope Fitzgerald's *The Blue Flower*. Wood reveals his own intimate relationship with the written word: we see the development of a provincial boy growing up in a charged Christian environment, the secret joy of his childhood reading, the links he makes between reading and blasphemy, or between literature and music. The final section discusses fiction in the context of exile and homelessness. *The Nearest Thing to Life* is not simply a brief, tightly argued book by a man commonly regarded as our finest living critic - it is also an exhilarating personal account that reflects on, and embodies, the fruitful conspiracy between reader and writer (and critic), and asks us to reconsider everything that is at stake when we read and write fiction.

Life is indeed a game that we all play to pass time; simply a series of days strung together, made up of how you planned or decided to spend the moments. Like any game how well it is played or whether life's circumstances are interpreted accurately, then used to the best advantage, makes losers and winners to varying degrees. Senseless insanity is alive and well within the world. The world is awash with unruly forces, that if not intent upon harming you do desire to become a destabilising force, either temporarily or over the long term. We are all participants in a charade, how life evolves and turns out all depend on how well the game is played. It is not wise or ideal to treat life like a game of chance, a random roll of the dice that can determine unpredictable outcomes. The cost of success is the careful application of well thought out concepts and ideas. Like any game preparation is critical; understanding the rules, knowing how to manipulate the dynamics at play efficiently to ones own advantage, understanding the intricacies of the rules and how to capitalise upon or create opportunities, pursuing whatever circumstances are present to maximise whatever potential exists to the best advantage. The potential opportunities in life are only limited by the inability to firstly comprehend them and secondly to fully utilise personal abilities to maximise the potential that is available. Don't wait for special times to evolve, rather create them in accordance with your true desires to experience what you wish to make real. Much like any game, the game of life has

things that can be obtained, or things that can be lost. How the game is played, the value of the stakes, the opposing factions all come to dictate an outcome, be that favourable or lacking any resemblance of being lucky. A life lived based upon any reliance on luck or fate being favourable is tempting only to the over optimistic, or those extremely lucky ones or who were fortunate in the past and believe that good fortune will continue in the future. While it takes resources to control the world, the control of your own specific world environment is really within your potential to achieve. How you choose to control your world, as well as to what extent your desires are put into action, determine whether your life will meet your wishes or not. The amount of thought and energy you exhort, the persistence of that effort, all comes to determine whether and to what degree what you want is what you actually get. In life you may win or loose at times, it's basically just like playing a game; the right mentality is chancing the wheel of life by trusting and ensuring you will win just the same.

The poems Mark has written come from the truest and deepest feelings of his spiritual self, his heart, sorrows and hopes. The words flow from the ache and wonder of love, the many mysteries and humour of life, and the awful sadness of loss or death. In this poetry collection, Mark offers you a mix of love poems, inspirational poems and poems of love and death. He shares with you many moments he has seen and experienced. Like a snapshot they capture instants of the highest highs and lowest lows that living brings to all of us. He offers you these inspirational poems to help your mood when you're down, to increase your understanding of life when cruel or unfair, to calm your thoughts and make you laugh ... or perhaps simply for you to enjoy. Mark hopes these will be poems everyone enjoys, and hopefully you do, because life really is a funny thing.

Upton Sinclair, one of America's foremost and most prolific authors, addresses the cultivation of the mind and the body in this 1922 volume. Sinclair's goal was to attempt to tell the reader how to live, how to find health, happiness and success, and how to develop fully both the mind and the body. Part One: The Book of the Mind covers such subjects as faith, reason, morality, and the subconscious. Part Two: The Book of the Body develops such subjects as errors in diet, the fasting cure, food and poisons, work and play, and diseases and their cures .

A warm and surprisingly real-life biography, featuring never-before-seen photos, of one of rock's greatest talents: Prince. Neal Karlen was the only journalist Prince granted in-depth press interviews to for over a dozen years, from before Purple Rain to when the artist changed his name to an unpronounceable glyph. Karlen interviewed Prince for three Rolling Stone cover stories, wrote "3 Chains o' Gold," Prince's "rock video opera," as well as the star's last testament, which may be buried with Prince's will underneath Prince's vast and private compound, Paisley Park. According to Prince's former fiancée Susannah Melvoin, Karlen was "the only reporter who made Prince sound like what he really sounded like." Karlen quit writing about Prince a quarter-century before the mega-star died, but he never quit Prince, and the two remained friends for the last thirty-one years of the superstar's life. Well before they met as writer and subject, Prince and Karlen knew each other as two of the gang of kids who biked around Minneapolis's mostly-segregated Northside. (They played basketball at the Dairy Queen next door to Karlen's grandparents, two blocks from the budding musician.) He asserts that Prince can't be

understood without first understanding '70s Minneapolis, and that even Prince's best friends knew only 15 percent of him: that was all he was willing and able to give, no matter how much he cared for them. Going back to Prince Rogers Nelson's roots, especially his contradictory, often tortured, and sometimes violent relationship with his father, *This Thing Called Life* profoundly changes what we know about Prince, and explains him as no biography has: a superstar who calls in the middle of the night to talk, who loved *The Wire* and could quote from every episode of *The Office*, who frequented libraries and jammed spontaneously for local crowds (and fed everyone pancakes afterward), who was lonely but craved being alone. Readers will drive around Minneapolis with Prince in a convertible, talk about movies and music and life, and watch as he tries not to curse, instead dishing a healthy dose of "mamma jmmas."

“This Crazy Thing Called Life” is a book that makes witty and satirical comments about the journey we’re all on, the journey we call life. Through his observations of human nature, and the human condition the author has formed his own unique perspective and has made comments, regarding those matters that most effects our lives, focusing on love, marriage, money, politics, education, religion, and life in general. At the same time he continually makes the point that we are all responsible for our own lives and that we can make it what ever we want. With comments, quotes, paraphrases, as well as pictures, the writer drives home his observations much in the style of Andy Rooney, and Art Buchwald. “This CrazyThing Called Life” entertains with humorous comments and pictures, but all the while it provokes thought about a multitude of subjects that we all experience on the roller coaster ride of life.
