Learn from examples, sample papers, and model documentation.

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Politics and the English Language*, the second in the *Orwell's Essays* series, Orwell takes aim at the language used in politics, which, he says, 'is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind'. In an age where the language used in politics is constantly under the microscope, Orwell's *Politics and the English Language* is just as relevant today, and gives the reader a vital understanding of the tactics at play. 'A writer who can – and must – be rediscovered with every age.' — *Irish Times*

Turn your inspiration into a story with clear, expert guidance. *Creative Writing Exercises For Dummies* is a step-by-step creative writing course designed to hone your craft, regardless of ability. Written by the founder of the Complete Creative Writing Course at London's Groucho Club, this activity-based guide walks you through the process of developing and writing in a wide range of genres including novels, short stories and creative nonfiction.
